OUR
PARTNERS
in Mutual
Success

A seat at our Chef's Table is a promise of quality prepared food products that match each of our partners' unique market demands.

Our Partner Promise

Always a **Partner**.

At Brett Anthony Foods, our customers are our business partners. Growth and prosperity can only be built and maintained through trusted and sustainable relationships. As a partner in our business, your business growth is our priority.

Innovation is a key Ingredient.

Whether culinary food items, new product offerings, or packaging and shipping, we will provide you with a cutting-edge full-service solution personalized to your business needs.

Adapt and Expand.

Adapting to your business needs is what we do. Our multifaceted commercial kitchen is USDA, USDA Organic, and FDA certified and can handle any size order.

Collaboration is our Strength.

For the ever-increasing demand for high-quality and inventive food items, our chefs in our Research & Development Kitchen collaborate with our partners to develop new, innovative food product ranges and diversified SKU's.

Reliable Service and Delivery.

Our sophisticated manufacturing facility ensures quick turn-around times and prompt deliveries daily. This is part of the service delivery guarantee to our partners.

Excellence is Ensured.

We promise quality and continuity. Whether your desired food solution is a new product line, product refinement, or an improved production process; quality, consistency, and reliability are the hallmarks of everything we do and produce.

Our Personalized Prepared Foods Solution

SPECIALIZED SPF administration software

Our software enables complete flexibility and innovation. From placing and managing your orders to kitchen production, packaging, labelling, food safety, and shipment.

This unique approach saves you cost, makes the receiving of your products more efficient, and enables us to offer a 99.8% Fill Rate.

PERSONALIZED product ranges

Get access to our highly experienced team of R&D chefs, enabling you to deliver cuisines that speak to the uniqueness of your brand and the needs of your customers through personalized product ranges and SKUs. We can have your products developed, sampled, perfected, and ready for your customers within a week.

EFFORTLESS ordering

We offer a smooth ordering process from start to finish - seamlessly integrating with your preferred ordering method, which can also consolidate multiple location orders for your production purposes.

Our expertise ensures that deliverables will be met, and any obstacle or complexity solved with an innovative solution through consistent service excellence from each department.

QUALITY vendors & produce partners sourced

We ensure quality, wholesome food through sourcing vendors and produce partners who practice high standards of food safety controls and procure their products with the utmost care.

CUSTOMIZABLE quantities

Our customized solutions facilitate an efficient, cost-effective process that accommodates your quantity requirements – no matter the scale. You will have the flexibility to request various quantities for different products ranges and SKUs. In addition, Brett Anthony Foods can produce products for multiple locations and deliver custom quantities according to each of your location's needs.

Partnership in FOOD SAFETY CULTURE

Our state-of-the-art **SQF**, **USDA** and **FDA**-certified Commercial Kitchen, combined with our systems software, enables us to ensure automated traceability and meticulous adherence to required regulations and industry directives.

CUSTOM packaging & labelling

Brett Anthony Foods' in-house packaging and labeling make it possible for you to have your products ready for shelf, straight from shipping. We can meet your unique storage needs, from bulk packaging to retail items and preportioned kits. And, when it comes to labeling, we follow the compliance and regulatory specifications you require.

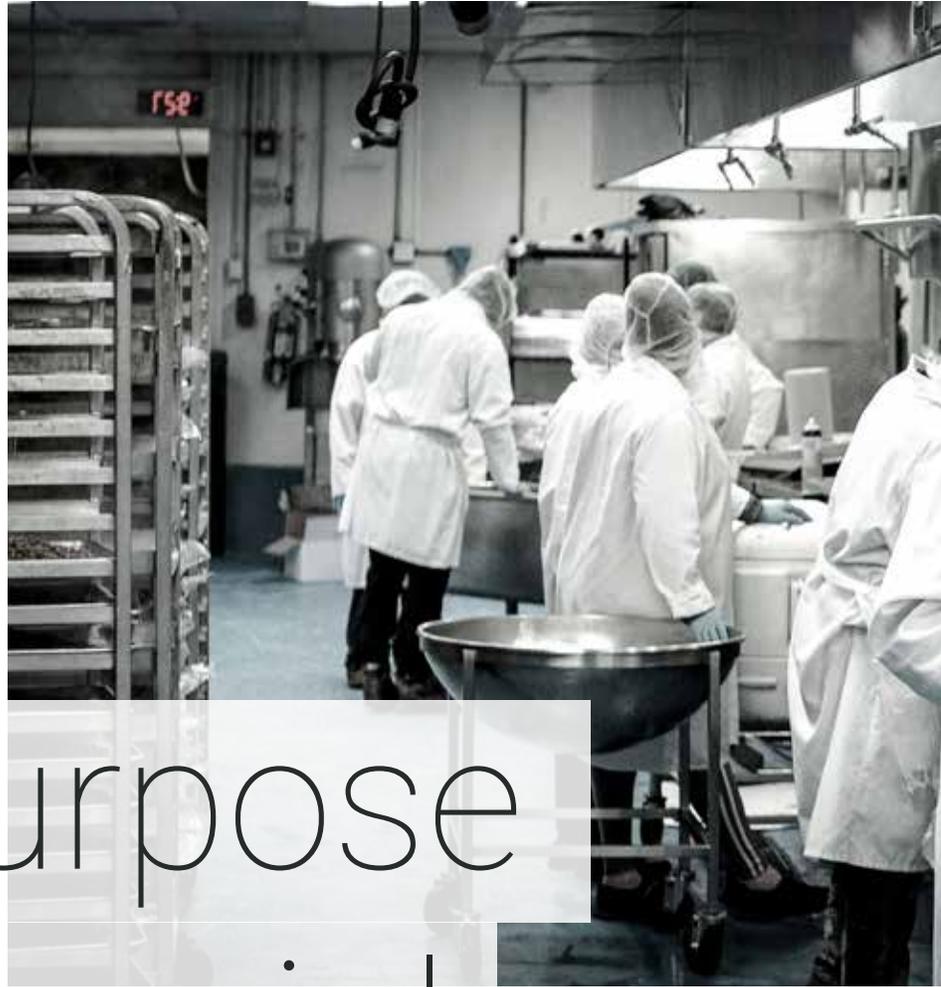

ON-TIME shipping

Our shipping management software makes it possible to innovate our MRP approach, ensuring that your customers can expect to have their favorite foods continually available through efficient and reliable on-time delivery.

TIME-SAVING stock intake

Our MRP streamlines your stock intake when receiving your Brett Anthony Foods products – saving you considerable resources and time with an otherwise time-consuming and tedious process.

Our Multipurpose Commercial Kitchen

Our **SQF, USDA and FDA-certified** Commercial Kitchen provides you access to tailor-made food manufacturing technology processes and procedures that will meet and exceed your unique food production objectives.

Every piece of equipment and process in our Commercial Kitchen is continually refined and customized for efficiency, quality, adaptability, and food safety.

Making Brett Anthony Foods your strategic partner that sustains and facilitates growth through:

ADAPTABILITY

We are equipped to solve any food manufacturing obstacle and can pivot quickly to meet your requirements.

FLEXIBILITY

Our solution saves money and time without compromising quality, variety, and safety. Whether you are looking for bulk packaging, retail items, preportioned kits - or all three - we will customize your order to match your requirements.

CONTINUITY

We have meticulously coordinated each space within our kitchen and optimized multi-functionality with our equipment to guarantee continued manufacturing services - eliminating business interruptions and promoting sustainable business growth.

SCALABILITY

We can provide expandability on a mass scale - giving you the freedom to scale within a timeous turnaround.

EFFICIENCY

We provide a complete solution that can produce complex and versatile product ranges, customizable quantities, and absolute traceability through our efficient coordination.

PERSONALIZE your Product Ranges and SKUs in our R&D Kitchen

From tasting to customizing a product range or SKU and bringing it to your customers, we could have it done within our short turnaround time.

PERSONALIZE your Product Ranges and SKUs in our R&D Kitchen

Our R&D chefs can customize product ranges and SKUs specified to your personal requirements and customers' taste - setting your products apart from your competitors.

Your partner in FOOD SAFETY

We can ensure that SQF, FDA and USDA food safety standards are not only adhered to but surpass all standards through our newly re-engineered, state-of-the-art facility in Chicago. Its design ensures that the utmost care is placed into food preparation - pioneering inventive ways that exceed the current industry standard.

Between our custom-made automation system and monitored checkpoints by our Food Safety Team, we have perfected the art of absolute traceability and administrative efficiency in food safety.

Every member of the Brett Anthony Foods team is empowered to recognize what it means to uphold our food safety culture and how they can contribute to sustaining our high standards through continuous training.

Product Ranges & SKUs

When you partner with Brett Anthony Foods, you partner with a team of chefs that are dedicated to developing your own distinct product ranges and SKUs in our in-house R&D Kitchen towards serving your brand promise.
